

Ontario Reports™

The ultimate reporting tool that puts better understanding, more effective decision-making and demonstrable compliance within your reach.

Business Challenge

Progressive businesses responding to an evolved receivables environment rely on informed decisions, profitable compliance and efficient performance to remain competitive. That means truly understanding the entire revenue picture: Your customers demand it, your service reps require it and your bottom line relies on it.

But traditional reporting practices can take an inordinate amount of time, and are often fraught with human error. Your business needs a solution that helps inform your business strategies while reducing hours spent creating reports, and enabling more agile maneuvering according to demands of your executive board, clients or others. Get the information you need, now.

Solution Overview

Ontario Reports™ is a fully-featured SQL reporting tool that integrates seamlessly with existing Ontario Systems core products. Its intuitive user interface provides drag-and-drop filters, sorting, groups and summaries, and gives you the option to group objects and build interactive dashboards for report generation and distribution.

The software gives you the capability to:

- Provide business statistics, including account rep call metrics and worked contacts
- Analyze inbound calls and agent call statistics
- Track account rep payments and promises
- Generate dialer reports and listings

Critical Differentiators

Ontario Reports™ is a lower-cost solution than more traditional reporting systems, which often cost thousands of dollars for similar feature parity. We enable you to expose dashboard elements, and schedule and distribute accordingly without expensive add-on modules or software packages. In addition, Ontario Reports™ provides visual tools that make it easy to present and digest information more efficiently.

The solutions enables:

- Fewer dollars and hours spent on robust reporting
- Better performance and decision-making
- More-informed executives and board members
- Conversion of existing reports to highly-visual presentation
- Web-based report viewing

Get in touch today, and we'll show you how Ontario Reports™ will make a difference tomorrow!
